

# FACILITIES IMPROVEMENT PLAN

Part of the LYSA/CSC Strategic Plan is to develop Moore Park into one of the top tier facilities in the state and region. With the facility updates, LYSA and CSC will be able to host their own games on a more consistent basis, as well as hosting over 500 games from outside the club and a high school showcase in 2017.

## THE FACILITIES IMPROVEMENT PLAN CONSISTS OF FOUR STAGES:

- 1** New LYSA/CSC office building and the addition of Fields 25, 26, & 27 (in conjunction with Lafayette Consolidated Government): PHASE ONE IS COMPLETE
- 2** Perimeter fencing, drainage, and irrigation on Fields 1-8
- 3** Enhanced/new field lighting and stadium seating
- 4** Parking infrastructure improvements and a children's play area

Proposed stadium seating in Field 4

The ultimate goal of the LYSA/CSC Facilities Improvement Plan is to create the finest soccer venue in the state, thus providing an outstanding training and game environment for our players, families, and guests. These enhancements will not only provide better playing surfaces for training and games, but also allow for play on a more regular basis after rain.
